Stock Market Letters.

James A. Pollock & Co., stock and grain brokers, 6 West Second South street, make public the following letters on the stock market:

stock market:

Logan & Bryan, New York, say: Market closed strong and generally speaking higher in all departments. Money rates were more erratic, but at no time did the call rate reach yesterday's 65, per cent level, the highest today being 56, per cent, with the closing at 3 per cent. Interest seemed to center in the low-priced issues, though trade was in much smaller volume than yesterday. We continue to feel it will be wise for the present to go along on the theory that this is a scalping market taking profits when in sight."

Dick Bros. New York, say: "The market has been quiet and strong today, the whole list scoring a rather material recovery and showing fair net gains in spite of some reactions at the close. The Government crop report was highly encouraging, but being about as expected did not get much attention."

get much attention."

T. A. McIntyre, New York, say: "The market ruled fairly strong today as prices showed some substantial gains, expecially in the higher priced issues, buying of which was influenced by the action of directors of Great Northern Railway in authorizing an issue of \$25,00,000 stock which shall be offered to stockholders at par to the extent of 20 per cent of their holdings. We continue to favor scalping position on the market for moderate turns, but we would take advantage of any sharp decline to buy the standard railroad stocks and the better class of industrials."

Marshall Spader & Co., New York, say: Marshall Spader & Co. New York, say:
"The financial situation seems to be clearer as reflected in call money rates and less concern evidenced in the banking circles. The week's movement of money shows less than one million loss by subtreasury operations and it would appear that with the final payments on the Japaneze loan falling due next Monday we may have then passed the point from where more positive calculations can be made."

Made."
Hutton, New York, says: "The banking interests here secured their position some time ago for money during the fall months and will carry their lines until later, when events will carry prices very much higher and then there will be a distribution of stocks. Stocks should be beught on every recession."

ADVANCE MADE IN PRICES OF GRAPES

No Concords to Be Had at Less Than 50 Cents Per Basket.

CALIFORNIA FRUIT ALSO INCLUDED IN THE LIST

Prices Named Tuesday to Be Maintained Until Close of Season.

With the close of the season for both Callfornia and Utali grapes approaching, prices ire naturally advancing. The fruit from the Golden State took a decided jump yesterday in the retail market, and consumers were chable to buy either Tokays, Muscars or ornichons for less than 60 cents a banket The provailing price on these since the beginning of the season has been 50 cents a asket, although some dealers have offered hem as low as 15 cents. Utah Concords are also a little higher, and whereas 45 cents as been the figure given on them by a mafority of dealers, none are now to be had at than 50 cents a basket. Concords are sald to be much better now than at the be raid to be much better now than at the beginning of the season, both producers and
dealers calming that the cold weather has
a tendency to sweeten them.
Therelay, as usual, the markets were devaid of features. Fish and California vegetables were especially scarce. There was a
fine lot of than celery offered, this product
improving noticeably as the season advances.
There were also a few occumbers, the first
for some days, and tardy picklers made hast
to purchase them. The senal line of freeh
and tempting things are promised by desires
for this morning.

GOVERNMENT REPORT MAKES GRAIN WEAK

Effect on Wheat Market Is Offset, However, by Bull Support.

CHICAGO, Oct. 10 -The rosy outlook shown in the Government crop report cased prices today in the wheat market, but the effect was offset later by purchases on the part of a leading buil. At the close wheat for December delivery was practically unchanged from yesterday's final quotations. Corn is off 14074c

oats are down %c and provisions 256666 The wheat market opened with a slight show of weakness. December was un-

show of weakness. December was unchanged to a shade lower, at 85% to 85% 55%. The downward tendency was due mainly to the failure of foreign grain markets to respond to the advance here yesterday. Weather in the American Northwest was again unfavorable for the movement of the new crop, rains having failen in many sections. Receipts today at Minneapolis and Duluth exhibited considerable decrease.

Buillish influences, however, were seemingly overlooked for a time. Moreover, the volume of business was somewhat restricted by the fact that the Government crop report was to be made at moon. Meanwhile the market became a little firmer on fait support from a prominent long, the price of the December option advancing to 85%. When the official statistics regarding the spring wheat crop were given out the market weakened decidedly. December dropped to 85% 85% on a gesuit.

On the basis of the Government figures.

On the basis of the total acreage at E.

On the basis of the Government figures and estimating the total acreage at 17,-613-900 the total yield of spring wheat in the United States for 1956 is in the neighborhood of 258,511,000 bushels.

On the break the market was again supported by the leading bull assisted by numerous shorts. Buoyed by this demand the loss was virtually all regained. The market closed about stendy, with December at 85%c.

Large yields and excellent condition of this year's crop of corn, as shown by the Government report, caused weakness in the corn market. December opened a shade to 15,24%c higher at 44%G44%c sold between 44%c and 44%c, and closed at 44%c. Local receipts were 24 cars.

The oats market was weakened by the Government report. December opened 4%c higher, at 25%c, sold off to 28%c and closed at the bottom figure. Total receipts were 25% cars.

As a result of a 6c decline in the price of live loogs, sentiment in the provisions market was bearish. Trading was very quiet. At the close January pork was off 25%c lard was down 25,65c, and ribs were 25%c lower.

Boston Wool Market.

BOSTON, Oct. 16.—The wool market is quiet and firm. The bulk of the trade is coming from the woolen goods manufacturers. Since the close of the London sales the market has stiffened on the low-grade wools. Territory wools are mostly stronger with prices practically unchanged. The market for pulled wools is quiet especially for B superiors. Foreign grades are strong.
